PJSC «MOSTOBUD»

Recommendation letter

"MostoBud" Bridge Builder recommends Welesgard as a coating solution provider. We have been working with Welesgard for decades. Together Mostobud and Welesgard completed 12 major bridge and infrastructure construction projects and numerous smaller construction and repair projects.

Welesgard particularly did a great job providing excellent coating solution when working for "Dogus Insaat" company (Turkey) - general contractor for "Darnytsky rail-road river bridge" project.

We recommend Welesgard as a reliable supplier and high quality coating solution provider for projects of any complexity.

Yours truly,

Deputy Chairman of the Board

Head of the Project Office

Mikhail Korniev
