Recommendation letter to Welesgard

Lukoil "Niznevoljksneft division" recommends Welesgard to supply anti corrosion coating systems for oil and gas pipes and reservoirs.

Welesgard was unlisted as a preferred supplier of coating systems for our oil refinery construction project including 8 oil reservoirs, system of pipes and various metal and concrete structures.

We would like to express special appreciation to inspectors of Welesgard Company for their high professionalism to solve difficult technical and project management problems.

Yours truly,

Head of USMOO department

Alanteev U.G.
